2.3.1 Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

In the institute all the teachers use student centric methods such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences. All the teachers in the college use following methods of teaching.-

Interactive Method: All the teachers use this method in classroom intermittently. The student-teacher interaction takes place during the classrooms teaching. To make this activity fruitful the teachers raises few questions to get feedback and the students are also allowed to pose question to get additional information of the topic considered for discussion. Teachers make changes in teaching after analyzing student's feedback.

Computer -Assisted teaching Method : All teachers in our institute use computer – assisted teaching method. With the use of projector and internet teachers make their teaching more effective and lively. Students can grasp the ideas more easily. Teachers of English, Hindi & Marathi use language lab for effective teaching.

Question-Answer Method: - Every teacher in our institute use Question–Answer method in classroom. After completion of every topic teachers ask questions and students answer the questions. Students come with preparation so that they can answer the questions. Thus, this method inspires students for study.

Demonstration Method: In our institute teachers use Demonstration Method while teaching practical subjects such as Home Science & Library Science. Demonstration Method is an effective teaching method in which students get opportunity to learn the procedure by observing the actual process. While teaching Home-Science practicals teachers demonstrates practicals in front of student and in Library Science practicals are based on demonstration.

Lecture Method : - This is one of the main method adopted for teaching - learning of all courses. It is also supported by use of teaching aids like charts, posters, maps and boards etc. Teachers explains all the points with the use of teaching aids. So that students can understand the concept easily.
